

5 Ways to Improve READING FLUENCY

1. Read aloud to children to provide a good model of fluent reading

Reading aloud with your child creates a great learning environment and models the importance of literacy. We have some great read aloud books available to parents in our parent resource section in the media center.

2. Use audio books

Audio books are a great literacy resource. All Hall County students have access to eBooks & audio books through Launchpoint.

3. Practice sight words every night

Sight words are a great way to improve your child's reading fluency. We have some great sight word resources available to parents in our parent resource section in the media center.

4. Buddy Reading

Taking turns while reading a book together is a great way to build up your child's reading confidence.

5. Independent Reading

Practice makes perfect! Independent reading can increase your child's reading level. Make sure to have them practice reading for at least 20 minutes a night.
